Reading: My job

I am a Doctor, also known as Physician, I'm a licensed health professional who maintain and restore human health through the practice of medicine. I'm **responsible for** examining patients, reviewing their medical history, diagnose illnesses or injuries, administer treatment and counsel patients on their health and well-being.

For this job, you need special qualifications. Of course, **you also need to be good at** thinking analytically so fast to save the life of the patient, doctors should have fantastic organizational and time management skills, the ability to make effective decisions and an innate ability to manage change.

I find my job really interesting. In nowadays, we are helping people but **it can get** a bit exhausted sometimes, for example when I go to the hospital for the COVID-19. **And it can also be** a little dangerous, especially when I haven't the required material. But on the whole, **I really love my work**. I can't imagine doing anything else.

THANK YOU.
